

BOTS & BEERS 'SPACE BAR' EVENT

Saturday 19th August 4:00 - 6:00pm

Commercial Hotel 127 Swan St, Morpeth NSW 2321

WHAT IS BOTS & BEERS 'SPACE BAR'?

Bots and Beers 'Space Bar' is part of a suite of events organised for National Science Week in partnership with the Hunter Innovation and Science Hub. Obelisk Systems a Maitland based embedded systems and education company will be presenting on how they went from developing hardware for the ISS and cutting edge prosthetics to teaching students. Attendee's will then have a chance to program StarLAB Mars Rover devices making them move and using their sensors.

Why Attend?

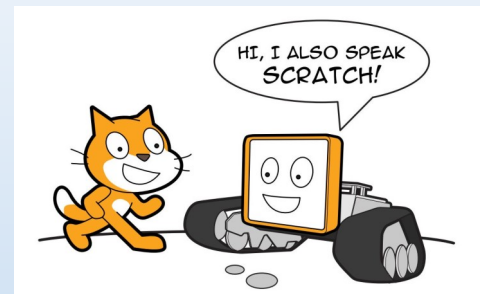

Experience robotic technologies that simulate that of a Mars Rover, whilst enjoying some of the best hunter craft beers

OBELISK SYSTEMS MAJOR SPONSORS

 Obelisk Systems began as an aerospace and biotech company, with their primary focus on the development of CubeSat technologies with a secondary focus on the development of prosthetic limbs. Obelisk was contracted to design CubeSat boards that would be flown to the ISS to give students a way to interact with space. <http://www.starlab.education/>

ME PROGRAM INITIATIVE

  Bots and Beers 'Space Bar' is an initiative of RDA Hunter's ME Program. The ME Program is the regions leading STEM workforce development program funded by the Federal and State Government. www.meprogram.com.au
